Corteva Agriscience: Internships 2025 Apply Online

Description

Corteva Agriscience is seeking highly motivated and talented individuals to join our Internship Program. Our internships provide students with hands-on experience in various aspects of agriculture, including research and development, agronomy, digital agriculture, marketing, supply chain management, finance, and more. As an intern at Corteva Agriscience, you will have the opportunity to work alongside industry experts, gain valuable skills, and contribute to meaningful projects that impact agriculture and food security globally.

Responsibilities

- Collaborate with cross-functional teams to support ongoing projects and initiatives.
- Conduct research, data analysis, and experimentation to solve real-world agricultural challenges.
- Assist in field trials, crop scouting, and agronomic data collection.
- Participate in product development, testing, and evaluation.
- Support marketing efforts through market research, competitive analysis, and promotional activities.
- Contribute to the development of digital agriculture tools and technologies.
- Assist in supply chain management activities, including inventory management and logistics.
- Engage in financial analysis and reporting.
- Present findings and recommendations to internal stakeholders.

Qualifications

- Currently enrolled in a Bachelor's, Master's, or Ph.D. program in agriculture, agronomy, plant science, biology, engineering, business, finance, or related field.
- Strong academic performance with a minimum GPA of 3.0.
- Passion for agriculture and a desire to make a positive impact on global food security.
- Excellent communication, collaboration, and problem-solving skills.
- Ability to work independently and as part of a team in a fast-paced environment.
- Proficiency in Microsoft Office Suite and other relevant software applications.
- Previous internship or work experience in agriculture or related fields is a plus.

Job Benefits

- **Competitive Compensation:** Interns at Corteva Agriscience receive competitive compensation packages commensurate with their skills, experience, and level of education.
- **Meaningful Projects:** Engage in hands-on projects and contribute to real-world solutions that address pressing agricultural challenges, making a
