

CSIR: Work Integrated Learning (WIL) Internships 2025 New Hiring

Description

CSIR is offering Work Integrated Learning (WIL) Internships for dynamic and motivated individuals seeking hands-on experience in a cutting-edge research environment. As a WIL intern at CSIR, you will have the opportunity to work alongside seasoned professionals, contributing to real-world projects and gaining invaluable insights into the world of scientific and industrial research.

Responsibilities

- **Collaborative Research:** Engage in collaborative research initiatives, working closely with CSIR scientists and researchers on innovative projects.
- **Project Participation:** Contribute to the planning, execution, and completion of research projects within specified timelines.
- **Data Analysis:** Assist in the collection, analysis, and interpretation of data, utilizing state-of-the-art tools and methodologies.
- **Documentation:** Prepare detailed reports, documentation, and presentations summarizing research findings and outcomes.
- **Learning and Development:** Actively participate in training sessions, workshops, and knowledge-sharing activities to enhance technical skills and knowledge.
- **Team Collaboration:** Collaborate with interdisciplinary teams to foster a dynamic and inclusive work environment.
- **Compliance:** Adhere to ethical and safety standards, ensuring compliance with relevant protocols and guidelines.

Qualifications

- Currently enrolled in a relevant undergraduate or postgraduate program in a science or engineering discipline.
- Strong academic background with a keen interest in scientific research and innovation.
- Excellent communication and teamwork skills.
- Proficiency in relevant software tools and technologies.

Job Benefits

- Exposure to cutting-edge research projects.
- Mentorship from experienced professionals.
- Networking opportunities within the scientific community.
- Certificate of completion upon successful internship.
