Ezemvelo KZN Wildlife: Work Integrated Learning Internships 2026

Description

Ezemvelo KZN Wildlife is a public entity responsible for conserving the natural resources of KwaZulu-Natal. Our mission is to promote the sustainable use of biodiversity and provide excellent conservation and eco-tourism experiences. We strive to develop and maintain a harmonious balance between people and nature.

Ezemvelo KZN Wildlife is offering Work Integrated Learning Internships to motivated and passionate individuals eager to gain practical experience in wildlife conservation, environmental management, and eco-tourism. This internship program aims to bridge the gap between academic learning and real-world application, providing interns with valuable insights into the operations of a leading conservation organization.

Responsibilities

- Assist in various conservation projects, including wildlife monitoring, habitat restoration, and community outreach programs.
- Support the research team in data collection, analysis, and reporting on wildlife populations and ecosystems.
- Participate in educational programs and workshops to promote awareness of conservation issues.
- Collaborate with staff in eco-tourism initiatives to enhance visitor experiences and promote sustainability.
- Help maintain records and documentation related to project activities and outcomes.
- Engage with local communities to foster support for conservation efforts.

Qualifications

- Currently enrolled in or recently completed a degree/diploma in Environmental Science, Wildlife Management, Conservation Biology, or a related field.
- Strong passion for wildlife conservation and environmental sustainability.
- Excellent communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Willingness to work in outdoor environments and adapt to various weather conditions.
- Previous volunteer or internship experience in a related field is an advantage.

Job Benefits

- **Practical Experience:** Gain hands-on experience in wildlife conservation and environmental management, enhancing your understanding of fieldwork and research.
