Sasol Learnership 2025 Apply Now for Career-Boosting Opportunities

Description

Sasol, a leading integrated energy and chemical company based in South Africa, offers comprehensive learnership programs designed to equip individuals with practical skills and theoretical knowledge in various technical fields. These programs are part of Sasol's commitment to talent development and contribute significantly to the nation's skills development initiatives. Established in 1950, Sasol has grown into an international integrated chemicals and energy company, employing over 30,000 people across 33 countries. The company develops and commercializes technologies and operates world-scale facilities to produce a range of high-value product streams, including liquid fuels, chemicals, and low-carbon electricity.

Responsibilities

Learners will be expected to participate actively in both practical and theoretical training components, provide administrative support during the practical component to enhance departmental performance, and engage in tasks related to their specific field of study under supervision.

Qualifications

Applicants should possess a Grade 12 certificate or an N3 qualification, ensuring they meet the minimum educational requirements for the learnership program.

Experience

Candidates should demonstrate proficiency in English, both verbal and written, and exhibit basic computer skills to effectively participate in the training and practical components of the program.

Skills

Throughout the program, learners will develop technical skills pertinent to their chosen discipline, communication and interpersonal skills, problem-solving and analytical abilities, and an understanding of workplace safety and compliance standards.

Job Benefits

Participants in the learnership program can expect a monthly stipend (e.g., R10,000 as indicated in some postings), comprehensive on-the-job training and mentorship, development of practical skills applicable to various industries, and enhanced employability upon successful completion of the program.

Contacts

For further inquiries, applicants can contact Sasol's recruitment department through the contact details provided on the official Sasol website at <https://www.sasol.com>. Embarking on a learnership with Sasol in 2025 offers a valuable opportunity to gain industry-relevant skills and experience. These programs are designed to foster personal and professional growth, paving the way for a successful career in the energy and chemical sectors. Interested individuals
