SA Weather Service: Work Integrated Learning (WIL) Internships 2025 Apply Here

Description

The South African Weather Service invites dynamic and motivated individuals to apply for our Work Integrated Learning (WIL) Internship program. This opportunity is designed to provide students with real-world experience and practical knowledge in the field of meteorology and related disciplines. As a WIL intern at SAWS, you will have the chance to work alongside seasoned professionals, contribute to meaningful projects, and gain valuable insights into the exciting world of weather science.

Responsibilities

- **Hands-on Learning:** Engage in practical, on-the-job training in various areas of meteorology, climatology, and atmospheric science.
- **Data Analysis:** Assist in the collection, analysis, and interpretation of weather data using state-of-the-art meteorological instruments and technology.
- **Forecasting Support:** Contribute to the preparation and dissemination of weather forecasts and warnings, learning from experienced meteorologists.
- **Research Opportunities:** Collaborate on research projects that explore new developments in meteorological science, climate studies, and related fields.
- **Communication Skills:** Enhance your communication skills by participating in the preparation of weather-related information for diverse audiences, including the general public.
- **Team Collaboration:** Work closely with multidisciplinary teams to understand the interconnectedness of weather, climate, and environmental factors.
- **Professional Development:** Attend workshops, seminars, and training sessions to augment your knowledge and skills in meteorology.

Qualifications

- Currently enrolled in a relevant degree program (Meteorology, Atmospheric Science, Climate Studies, Environmental Science, etc.).
- Strong academic record with a keen interest in meteorology and related disciplines.
- Excellent analytical and problem-solving skills.
- Effective communication skills, both written and verbal.
- Ability to work well in a team and adapt to a dynamic work environment.

Job Benefits

1. Professional Development:

- Gain hands-on experience in meteorology and atmospheric science.
- Work alongside seasoned professionals and mentors.
- Attend workshops, seminars, and training sessions to enhance your skills.
